An easy victory was expected and the game was arranged to afford the locals practice more than anything elve. Because of this fact many of the substitutes were given an opportunity to break into the game.

A meeting of the stockholders of the Washington Baseball Club will be held tomorrow afternoon at 4 o'clock in the tion of officers will be held, and the afficiency of the franchise discussed. Wilton J. Lambert will be elected president, say the stockholders, and William J. Dwyer, business manager.

Johnson is trying to sell for the club may be made public.

The meeting will be the first since the club was sold to William J. Dwyer and Thomas C. Noyes. It should be of especial interest on that account. All of the stockholders now are Washingtow men, and for the first time in its history the franchise is owned entirely by local investors.

Immediate Action Needed.

While Messrs. Dwyer and Noyes have been going ahead and making all arrangements for the opening of the season without calling a meeting of all the stockholders it is not thought they have antagonized the minority interests. Immediate and decisive action was necessary because of the late date in the season at which the club was sold.

The new controlling interests were prompt in obtaining a lease on the Seventh Street grounds and have already nearly completed the transfer there of all the stands and other paraphernalia that formed the equipment at American League Park last summer.

Say Layers of Odds at Race Track.

It is not probable that there will be any action taken against the Washing-ton Jockey Club officials or the layers of odds doing business at Benning until

About ten years ago the question was brought up as to the legality of betting at the Benning course, and at the time it was decided that the setting up of a gaming table and paraphernalia was contrary to law and should be stopped. Fred Miller, a popular trainer, who is now running horses at the track, submitted to arrest in order to provide ar opportunity for testing the matter, and livan nor Frank Farrell this year, but it was then decided that to allow bets

tickets was clearly in violation of the existing law.

Later it was set forth, when a layer of odds was arrested, that to conduct betting under the system now pursued could not be construed as the setting up of a table and paraphernalia for gambling purposes. As a matter of fact, it is said, the manner in which the betting is now carried on at Benning is only betting between the parties interested, and there is no paraphernalia of any kind employed. The layers state the odds they will give against the horses, and the bettors place their money, the layer making a record of the transaction on a sheet provided for it. There is, in no sense, a table or paraphernalia.
